

Siddi Style Kawandi Table Runner or Placemat

Supply List

- BACKING** - no larger than 15" x 15". For this project, in the spirit of recyclability, an old dish towel, napkin or dresser scarf will work. If your backing is thin or damaged, a thin cloth (like muslin) can serve as an additional backing. You can also use a piece of cloth...but not batik or denim.
- FABRIC** - scraps for the front. You may use strips about 3" wider in varying lengths. Odd left-over pieces and charm squares (4"x4") also work well. This is a great place to use orphan or vintage squares...even ugly fabrics.
- BATTING** - one large piece but can also use scraps or strips.
- THREAD** - embroidery, Sashiko, perle cotton, jeans thread (like heavy duty Guterman) or novelty threads if you are not using your finished project as a hot pad.
- NEEDLES** - big eye long needles work best, long Sashiko or embroidery needles work well.
- SCISSORS**
- FINGER GRIPS** - or balloon ends
- SMALL PLIERS**
- THIMBLE** - regular or palm thimble
- PINS** - if you want to use, but not necessary
- IRON** - if you want to use one, but finger pressing also works
