and more

OPTIONAL:
Add ties to dots

Printing the Pattern:

- * Print pattern with **Page Scaling** set to **NONE**. Print all 16 pages.
- * Tape pattern pages together. Use rotary cutter and mat to trim any excess overlap as needed. The pattern is 4 sheets wide and 4 sheets long.

Top Edge of Pocket

Suggested Fabrics:

Prequilted fabric 45 inches wide or wider
Terry cloth 45 inches wide or wider

Materials Required:

¾ yard long X 45 inches wide fabric makes 1 bib
2 packages Wrights Extra Wide Double Fold Bias Tape
[Optional: Make your own double fold bias tape with a Clover bias tape maker]
[Optional: 1½ yards of 1 inch wide gross-grain ribbon for ties]

Instructions:

1. Cut one piece of pre-quilted fabric, following the outside perimeter pattern outline.
2. Cut one piece of pre-quilted fabric for the pocket.
3. Add extra-wide double-fold bias tape across the pocket top, using a zig-zag stitch.
4. Sew pocket in place on the bib. Sew along the bottom and side of the pocket.
5. Cut out the neck opening.
6. Add extra-wide double-fold bias tape around the neck hole, using a zig-zag stitch.
7. Add extra-wide double-fold bias tape around the outside perimeter of the bib, using a zig-zag stitch.

NOTE: If you choose not to make the “*Pull Over the Head*” type bib, cut through the line at the top of the neckhole, immediately following step 5 above, to create two (2) tabs.

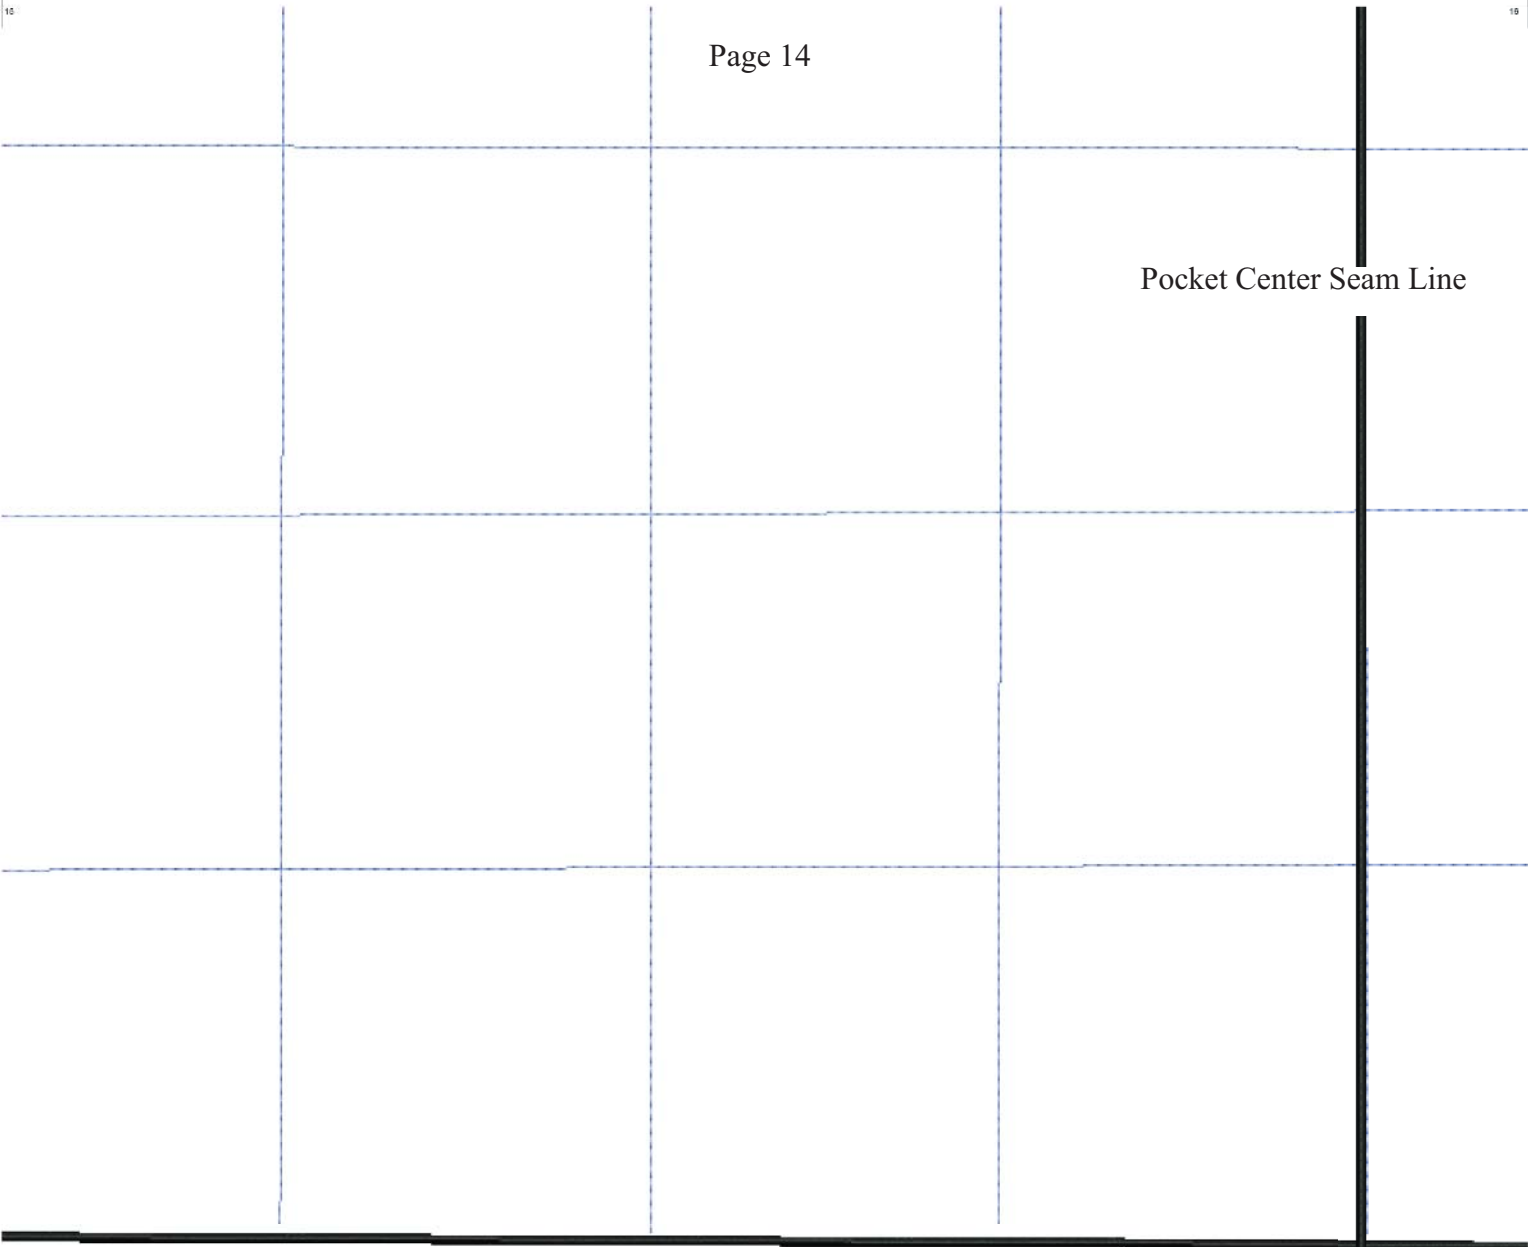

Consolidate steps 6 and 7 above to add bias tape around the neck hole, tabs, and perimeter of the bib, using a single piece.

Add velcro or ties to the end of each tab.
